Cable Slap Ties™

Cable Slap Ties, the latest innovation from Kaltman Creations LLC, represents a more efficient, convenient and economical method of securing cables.

Cable Slap Ties can be used manually by simply slapping one onto a coiled cable, or used in conjunction with the Kaltman Cable Coiler for a Total Cable Management System.

Cable Slap Ties will never wear out. Simply snap them back into shape and they are ready to use again and again. No more fussing with Velcro or Cord ties.

10 Cable Slap Ties are included with each Kaltman Cable Coiler. Cable Slap Ties are also sold separately in 21 piece - assorted color packs. Custom Imprinting is available for your store or production company.
